 - The management should be supported by a suitable governance structure involving the participating organisations at an appropriate level.
2. *Quality and efficiency of the implementation (Threshold 3/5)*
 - In reference to the applicable work programme, does the proposed ERA-NET / ERA-NET Plus action pool the necessary resources between national programmes and the Community and does it represent the most appropriate type of public funding for this pre-defined area?
3. *Potential impact (Threshold 3/5)*
 - The participants should be the key actors within their national or regional research systems.
 - The ERA-NET activities should lay the foundations for a durable cooperation between the partners involved.
 - Is there a clearly identified and agreed European added value through a variable geometry approach?

Indicative evaluation and contractual timetable: Evaluations are expected to be carried out during the month of March 2008. It is expected that the contract negotiation for the shortlisted proposals will start in June 2008.

Consortia agreements

Consortia agreements are recommended but not mandatory for the ERA-NET actions.

Particular requirements for participation, evaluation and implementation:

See part on eligibility in the description of the activity 3 in the Work Programme. In particular, the ERA-NET Plus proposals require programme owners or programme managers from at least 5 different Member or Associated States to plan a single joint call with a clear financial commitment from the participating national or regional research programmes.

The indicative budget should be apportioned between ERA-NET and ERA-NET Plus projects.

Forms of grants:

The forms of grant and maximum reimbursement rates which will be offered are specified in Annex 3 to this work programme.
